

Bulletin Volume 149-172 (Paperback)

By West Virginia University Station

Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1915 Excerpt: .and exit closed, allowed to stand on the balance pan 15 minutes and weighed5. Duplicate determinations should check within.01 total carbon, equivalent to about 0.0007 g CO. on a two-gram sample. 1 Before starting a single determination, or a series of determinations, the apparatus should be connected up and sufficient oxygen passed through to burn out any carbon contained in the asbestos plugs and to sweep out the air originally in the train. The further passage of oxygen should produce no increase in the weight of absorption bulb. 2 Care must be observed to prevent the furnace attaining a temperature of much over 1000 C, as cupric oxide fuses at 1064c C. and when this occurs the silica tube slags with the fused oxide and invariably cracks on cooling. A temperature of over 825 C. is necessary to insure decomposition of carbonates. Drawing the gas through...

Reviews

An incredibly wonderful book with perfect and lucid explanations. It normally is not going to price a lot of. I am just very happy to tell you that this is the greatest pdf we have go through within my personal lifestyle and could be the finest book for at any time.

-- **Bart Lowe**

This is basically the greatest pdf i actually have go through till now. It is definitely simplistic but surprises within the fifty percent in the ebook. I am easily will get a delight of studying a published ebook.

-- **Hyman O'Conner III**
